Vincezio Lisanti, MD  
Council for Tobacco Research  
900 3rd Avenue  
New York, NY 10022

Dear Vinzi,

Please find enclosed the request for support for the International Conference on "Cellular and Molecular Aspect of Self Reactivity and Autoimmune Diseases", which I organized with my Italian friends in Taormina. The program enclosed is the final program, since all the speakers have accepted to participate.

I would be very pleased if the Council for Tobacco Research could support the meeting, which as you can see, has an outstanding program.

Sincerely yours,

Constantin A. Bona, MD., Ph.D.,  
Professor of Microbiology
